# Minerals with Ceramicore Technology

Minerals with Ceramicore Technology is a revolutionary engineered stone core that is 100% free of PVC, Plasticizers and PP and is naturally mold and mildew resistant. It comes with an option of RPET backing is made of recycled bottles or an IXPE underlay. Minerals with Ceramicore Technology can be installed over any type of levelled hard surface. Its Rigid core allows for no telegraphing of small subfloor imperfections.

Thanks to it's stone-based core, Minerals with Ceramicore Technology is 100% waterproof & ultra stable – not reacting to temperature and humidity variations. The floor can be installed without transition moldings up to 1000m² even in doorways. Minerals with Ceramicore Technology can have kitchen cabinets and other heavy furniture installed directly on top and requires no acclimation.
